

REMARKS

Claims 1-23, 30-34, 37-43 and 46-47 remain pending in the present application.

The present Reply is in response to the Examiner's Notice of Non-Responsiveness dated May 20, 2004. In the Examiner's Notice, the Examiner indicated that Applicant's Amendment filed on April 13, 2004 is not fully responsive because "all the additions and subtractions do not follow the last paper". As a result, Applicant hereby re-submits the claim amendments of April 13, 2004 with the correct additions and deletions made with respect to the previous claims. Only claims 1, 30 and 39 required such corrections. Accordingly, Applicant has now fully responded to the last Office Action.

Telephone Interview Conducted

Applicant appreciates the Examiner's courtesy telephone call of May 18, 2004 with respect to the Examiner's Notice of Non-Responsiveness. Further to the telephone call, Applicant respectfully points out that certain dependent claims already recite the formatting process through certification as shown in Fig. 6 of Applicant's invention. For example, see claims 7, 8, 15 and 17. These claims are also patentable over the prior art of record as suggested by the Examiner during the telephone interview.

CONCLUSION

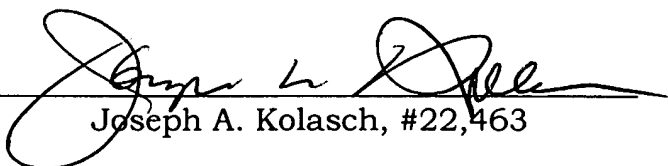

For the foregoing reasons, Applicant respectfully requests the Examiner to reconsider and withdraw all of the objections and rejections of record, and earnestly solicits an early issuance of a Notice of Allowance.

Please contact Applicant's representative, Esther H. Chong (Registration No. 40,953) for any matters regarding this application.

If necessary, the Commissioner is hereby authorized in this, concurrent, and further replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17; particularly, extension of time fees.

Respectfully submitted,
